

LAS GNOME Sponsorship

This year's LAS GNOME will be held from November 2 - 5 at Stanford University in California.

The long term vision for LAS GNOME is to cover issues that span the entire Linux user space. It is designed to bring Linux enthusiasts together to exchange ideas on creating a better experience, and a place for the public to participate in the Linux revolution.

In its first years, LAS GNOME will be focused on the Linux desktop space and on creating an ecosystem of applications for it.

We expect the 2017 edition to have hackfests around improving the developer experience, as well as marketing Flatpak/Flathub in order to get more apps packaged. Special events are also being planned to involve students and newcomers, including a Linux installathon and some talks around the importance of Linux and FLOSS.

We invite you to participate and help us to advance the state of the Linux desktop through LAS GNOME.

Last year's inaugural conference in Portland, Oregon, USA.

2017 Sponsorship Levels

	Trendsetter - \$3K	Champion - \$1.5K	Supporter - \$500	Thumbs Up - \$250
Booth space at event	X			
5 min space during opening talks to present	X			
Special mention in opening talks	X	X		
Logo on entrance banner	X	X	X	
Logo, link, and text on conference website	X	X	X	X
