To whom it may concern,

The GNOME Foundation certifies that Milan Bouchet-Valat has been a member of the GNOME Foundation since May of 2010 due to his significant contributions to the GNOME project.

Milan's main contributions include maintaining the gnome-system-tools, liboobs and system-tools-backends. He contributed to the control center, GTK+ (File Chooser) and the Shell (application usage tracking). He also upstreamed bugs from Ubuntu.

The GNOME Foundation is a tax exempt charitable nonprofit in the United States, dedicated to the development and promotion of free and open source software. GNOME is a full, user-friendly desktop for GNU/Linux and UNIX-type operating systems, based entirely on free software.

I would be very happy to answer any questions by email or phone at the above contact information.

Sincerely,

A handwritten signature in black ink that reads "Karen M Sandler".

Karen Sandler
Executive Director
GNOME Foundation
